SUMMARY

Computer Science undergraduate with practical experience in full-stack web development using the MERN stack. Proficient in Data Structures and Algorithms using Java. Eager to secure an internship to apply problem-solving skills and contribute to real-world projects. Familiar with RESTful APIs, JWT authentication, and scalable web applications.

EDUCATION

B.Tech CSE [6.8 CGPA] , Haridwar University	2023 – 2027
Higher Secondary Education [72%] , KPS Memorial High School, Patna	2020 – 2022
Secondary Education [76%] , Patliputra Central School , Patna	2019 – 2020

WORK EXPERIENCE

Full Stack Web Development Intern , National Institute of Electronics and Information Technology Built full stack web applications using React, Node.js, Express, and MongoDB.	06/2026 – 08/2026
Edunet Foundation AICTE Internship Front-End Web Development	21/08/25 – 02/10/25
Data science Intern [Haridwar University] Worked on data analysis and visualization using Python and Pandas	05/2025 – 06/2025

TECHNICAL SKILLS

- Language: Java, JavaScript, Python, C
- Frontend: HTML, CSS, React.js
- Backend: Node.js, Express.js
- Database: MongoDB , SQL, PHP
- Core Concepts: Data Structures & Algorithms (Java), REST APIs, CRUD Operations, API Integration, JWT Authentication
- Tools: Git, GitHub ,Postman, Socket.io

PROJECTS

[Real-Time Chat App \(MERN Stack \)](#) | [GitHub](#)

- Engineered a scalable **real-time messaging platform** using **React.js, Node.js, Express.js, MongoDB, and Socket.IO**.
- Developed secure **JWT authentication** and authorization with protected routes.
- Implemented real-time communication using **WebSocket (Socket.IO)** to deliver low-latency messaging.
- Created RESTful APIs for authentication, user management, and chat operations.
- Managed backend APIs, MongoDB database operations, and user authentication with efficient error handling.

[Amazon Clone](#) | [GitHub](#)

- Built a full-stack e-commerce application using MERN stack with user authentication and product management features
- Designed and integrated RESTful APIs using Node.js and Express.js for efficient backend operations
- Implemented CRUD operations with MongoDB to manage product and user data

[Responsive Landing page](#) | [GitHub](#)

- Designed and developed a responsive landing page using HTML, CSS, and JavaScript.
- Utilized CSS media queries and a mobile-first design approach to ensure seamless performance

[Stop-Watch web application](#) | [GitHub](#)

- Implemented start, stop, and reset functionalities using JS
- Designed responsive UI using CSS and React.js

ACHIEVEMENTS & AWARDS

Awarded as Academic Excellence for qualifying "Python For Data Science" , NPTEL	2026
Awarded as Academic Excellence for qualifying "Programming in JAVA" , NPTEL	2025
Express.js Certification , Coursera	
Front-End Development Internship Certification , Edunet Foundation AICTE
